REGARDING SHORT LINES.

The bee line to success is always a short one. Successful people do not go around a ten acre field. They go across lots. That is why the Santa Fe Route to Chicago is so popular. It is the shortest line; therefore the most successful with the public. Thirty miles less distance to cover between Kansas City and Chicago than any competitor. Equipment is all that can be required for comfort and convenience, consisting of solid vestibule trains of Pullman palace sleepers, library chair cars, dining cars and day coaches.

Leave Kansas City 5.25 p. m. or 6.40 d. m. and arrive Chicago 8.30 a. m. or 9.15 a. m. the next day. A slower train leaves Kansas City 8.35 a. m. and arrives Chicago 7.50 a. m., with sleeper. Fort Madison to Chicago. Inquire of Thos. Jaques, local agent, A. T. & S. F. Co.

THE PELTON WATER WHEEL

Give the Highest Efficiency of any Wheel in the World. Over 1300 in use.

Affords the most simple and reliable power for all mining and manufacturing machinery. Adapted to heads running from 20 up to 2000 ft. more. From 20 to 50 per cent. better results guaranteed than can be produced from any wheel in the country.

Electric Transmission. The Pelton Water Wheel finds its way to a uniform and reliable power, a one regulation, and the facility of adaptation to varying conditions of speed and pressure, have brought it into special prominence and extensive use for the class of work.

All applications should state amount and head of water power required, and for what purpose, so that approximate length of pipe line, head, and cost can be determined.

The Pelton Water Wheel Co.

121-123 Main St., San Francisco, Cal., U. S. A.

Pelton Water Motors.

Varying from the fraction of 1 up to 15 and 20 horse power, unsuited for all light running machinery. Warranted to develop a given amount of power with one-half the water required by any other.

Send for Motor Circular. Address the above.

NOTICE OF FORFEITURE.

Territory of New Mexico ss

County of Socorro ss

To William W. Dedrick, George W.

Pomeroy, James D. Lucas, Reuben

T. Pomeroy, Henry W. Blitch:

You are hereby notified that I have

expended one hundred dollars (\$100) in

labor and improvements upon the Wall

Street mining claim, situate in the Silver

Mountain Mining District, Socorro

county, New Mexico, being the amount

required by law to hold the same, as as-

essment work for the year ending

December 31st, 1890 and that if within

ninety days after the first publication of

this notice you fail or refuse to contrib-

ute your proportion of such expenditure

as co-owners: your interests in said

claim will become the property of the

undersigned, under the provisions of

section 2284 of the Revised Statutes of

United States. JOHN J. A. DODRICK.

Socorro, N. M., Feb. 27, 1891.

LORDSBURG.

Western Liberal.

Lord Hussey came down from Piedmont, Wednesday with a carload of ore from the Jim Crow mine which the Steeple Rock mining company thinks is better to smelt than to run through the mill. He shipped it to Denver.

H. C. Boone has bought a one-third interest in the Alabama mine in the Piedmont district from Wm. Crook, the consideration is said to have been a thousand dollars. The Alabama is one of the best properties in the camp and shipped a large amount of high grade ore. Jas. Tong owns one-third and Head & Lindauer own the other third. A shipment will soon be made from the property.

The new well of the Pyramid company appears to be a success. The new pump was put to work last Friday and pumped at the rate of a thousand gallons per hour day and night until Tuesday, with no sign of a failure. This amount of water will provide the company with plenty for all its uses. Superintendent Hamilton has put about ten American and thirty Mexican miners at work and started the mill up Wednesday.

C. F. Madison, who owns most, if not all, of the Ruby Silver mine at Gold Hill, which was formerly operated by W. C. Tonkin, arrived at Gold Hill this week, and paid off all accounts against the mine and set men at work doing the assessments. The Ruby Silver is a very rich property and has produced considerable high grade ore, but was never made to pay under Mr. Tonkin's management.

HILLSBORO.

The Chandler Mill is making trial runs on various ores in camp, with more or less success.

Hastings & Brown have a fine streak of very rich ore in their lease on the Pelican. It assays as high as 1,620 ozs.

Swartz Bros. & Gill have taken a lease on the "Expectation" mine. This property adjoins the Ocean Wave mine and is owned by the same parties.

Parks and Wedgwood, who have the contract for sinking the shale shaft, finished timbering this week and have commenced work with hammer and drill.

Col. Frank Leavitt, leasing on the Silver Mining Co's ground, has opened up a body of pay ore, and the prospect is fair for his making something of a stake.

J. F. Saint, of Albuquerque, has purchased the Flying Dutchman gold prospect in the Hillsboro district, and is looked for any day to start the property up.

SILVER CITY.

Walter C. Hadley advertises to buy any mine that will pay expenses. He will need a private secretary to answer his letters.

The Flagler Smelter will be in readiness for regular work about December fifth, and will handle about 30 tons per day of the base ores now being shipped from the county to foreign smelters.

Col. H. L. Pickett is building a substantial, brick wall with stone foundation between his houses and the Episcopal church lot. A good scheme Col. but you can't keep out religion with a picket fence, even though it is built of stone.

There is a force of ten men at work on the Uncle Sam mine, at Cow Springs. Good ore bodies are in sight in several parts of the mine, and ore shipments to the mill

have again commenced and will be kept up steadily. The main working shaft is being sunk at the rate of two feet per day. An offer of \$25,000 has been refused for the property. It is owned by Joe E. Sheridan, and is being worked under lease and bond by the Grant County Mining and Milling company. Messrs. Reed, Millstead & Beal, the lessees have a good thing.

John Dragaw was over from Georgetown last week, and reports the camp as flourishing. He was en route to Socorro with a car of high grade ore. The old Parapet company mill is running on regular time. A sampler has recently been added, which of great convenience to all lessees in the mine. A large amount of low grade ore is ready for the mill.

Additional Editorial.

In another column of this paper will be found the ad. of the Weekly Globe Democrat, "the best newspaper of the age." It fills a want here in New Mexico by giving us the latest and most reliable news. Parties wishing a good newspaper should subscribe for the Globe Democrat.

A Sheep Thief.

Under the above heading the Citizen publishes the following:

Mr. Speare states that Frank Blake, son of Col. F. A. Blake, who has turned out bad, a few weeks ago stole between 400 and 500 sheep from Manifor Romero, near Rita Quemado, in western Valencia county, driving off the sheep in broad daylight. Mr. Romero and several of his herders followed, but Blake stood his ground with his Winchester and the party retired, leaving the darling young man in possession of the sheep. The theft was reported to the officials, and Blake, with the stolen sheep, is being hunted.

There are several inaccuracies in the above, one is, Rita Quimado is not in Valencia county, the other is that Deputy Sheriff Fisher saw Blake when Manifor Romero was after him with a gang that he keeps around him, and also that Blake had no sheep. Regarding the trouble of five months ago, the best people in the western part of Socorro county hold very different views from the justice at Los Lunas. Another thing, where all this trouble is occurring is in Socorro county, even though Valencia county claims jurisdiction.

Socorro County Patents.

The following is a list of Socorro county patents just received at U. S. Land office which will be delivered on surrender of final receipt, or an affidavit accounting for its loss and claiming ownership:

CASH ENTRIES.

- No. 1583—Daniel R. Boone.
- No. 1181—Wm. T. Crabtree.

- No. 432—Antonio Baca.
- No. 431—Daniel S. Foster.
- No. 430—Thos. Doffy.

Truly,

S. M. MCCREA,

Register.

Hon. Amado Chavez, territorial superintendent of public instruction, spent a couple of days in Las Cruces and Mesilla this week, the guest of Mr. and Mrs. W. C. Reynolds and other friends here, leaving on Tuesday's train for Cuchillo Negra and other Sierra county points. Mr. Chavez has a splendid record as a hard-working, faithful and painstaking official—Rio Grande Republican.

LOCAL NEWS.

J. P. Chase returned this week from the land of oranges and pineapples. He says Florida is the paradise of America.

Between the smelter and the plaza there are two hearts that will beat as one during the holidays. We expect cards and cake very soon.

Miss Jones, sister of R. A. Jones, arrived in Socorro last week on a visit to her brother and sister. She comes from her home in Florence, Alabama.

Socorro has a new set of rain makers in J. F. Cook and F. Fisher. We do not know how they divide the labor, but they get water every time.

James W. Collins is very low, he was brought from Albuquerque a few days ago by his brother Bob. He is with his mother, who has the sympathy of her many friends.

There is an old Mexican woman back of Browne & Manzanares' store house who is in a destitute condition. The city or the Ladies Aid society should look after her.

For bargains call on S. T. Butler for the next week. He will sell saddles, bridles and all kinds of goods cheaper than ever sold in Socorro. This holds good until next Thursday.

W. H. Stott, of Kelly, came down Friday. He says there was no dust in Magdalena, only a land slide in full motion, in fact he never saw real estate so lively in that locality.

Bob Benn, of Saw Mill Canon, he of the Angora goat herd, came to Socorro Sunday last. Ben says there are lots of quail down his way and that winter has not put in an appearance so far.

Leeson on Court street, has added specimens from thirty-five claims to his mammoth collection. Everyone is invited to see this vast collection, which is the finest, rarest and largest in the southwest.

Ladies should call at the Fischer building and see the bric-a-brac, needle and fancy work, piano music, books, and everything in the line of parlor, bedroom and kitchen goods for sale at auction, on Monday at 10 a. m.

On Wednesday evening, Dec. 30, the Socorro Amateur Theatrical club will produce two striking plays on which they are now rehearsing. In this entertainment they will be assisted by the best musical talent in the Territory in a grand concert. The proceeds of the entertainment will go to the school fund.

Wilson Waddingham was in San Marcial most of the week looking over matters preparing to put cattle on the Jornada del Muerta, and establishing several fruit colonies on the Armandaris Grant. When Mr. Waddingham and those interested with him move in this matter, San Marcial will take a boom that will surprise the people living there.

The military is ordered to re-occupy Fort Marcy at Santa Fe. The order was issued on Thursday, yesterday. The people of Santa Fe can give Governor Prince the whole credit for this, as he, and he alone, is entitled to it. THE CHIEFTAIN takes this occasion to congratulate the people of Santa Fe on their good fortune. This is one of the things that will materially help that city, and this paper is extremely glad that they are so fortunate, anything that helps any one city of New Mexico helps us all.

AUCTION.

The Grandest Auction Sale of the Season. Don't Miss It.

Will take place on the Plaza in the Fischer block, on Monday Dec. 7, at 10 a. m. consisting of parlor and bedroom sets, dining and kitchen furniture, also carpets, rockers, glassware, queensware, library, choice books and other goods to numberable to mention. Also on new upright piano, cost \$800, also the gentlest and best saddle horse in the city, with saddle and bridle.

Bargains for every one. Remember the day—December 7.

J. J. LERSON,
City Auctioneer.
